The gel base is based in 100% on oligomers, thanks to this the product is extremely thick, incredibly easy to form and retains its shape, all of this makes it perfect for professional stylists and beginners.

Gel baza se 100% temelji na oligomerima, zahvaljujući tome proizvod je izuzetno gust. Nevjerovatno je jednostavan za oblikovanje i zadržava oblik, sve to ga čini savršenim za profesionalce i početnike.

Step by step / Korak po korak

Proces lakiranja noktiju Urban Pro Trajnim lakom Urban Pro UV Led hybrid gel polish process

Before painting nails push back and cut your cuticles, than shape your nails

Prije lakiranja noktiju, pogurajte i uklonite zanoktice, zatim oblikujte svoje nokte.

Buff the nail plate carefully using abrasive buffer or nail file with granulation 100/180. Delicately remove nail's shiny layer - do not file too hard, so you would not damage the plate.

Pažljivo obradite nokat koristeći abrazivnu turpiju za nokte ili turpiju granulacije 100/180. Uklonite sjajni sloj sa nokta, ali ne pritisakujte previše zbog mogućeg oštećenja nokta.

Next, remove dust with a brush and de-grease the nail thoroughly with cleaner. After that you must use primer to improve adhesion.

Nakon toga, uklonite prašinu sa četkom za nokte i temeljno očistite sa čistačem (cleaner). Zatim obavezno nanesite prajmer da poboljšate povezivanje.

Apply thin layer of base on the prepared plate and cure under lamp for approx. 30 seconds. You can repeat the action.

Nanesite tanak sloj baze na ploču nokta i sušite u LED lampi oko 30 sekundi, a u UV lampi 2 minuta. Ukoliko je nakačna ploča tanka ili oštećena, možete još jednom nanijeti BASE COAT ili koristiti HARD BASE zbog jačanja nokta.

Next, apply the first thin layer of the chosen color and cure it in LED lamp for 30 seconds, or in UV lamp for 2 minutes. If you want stronger color intensity, repeat the process.

Nakon toga nanesite tanak sloj odabrane boje i osušite u LED lampi 30 sekundi, a u UV lampi 2 minuta. Postupak ponoviti na isti način, ukoliko želite jači intenzitet boje.

On the last layer of color apply top coat to secure hybrid gel and give it a proper gloss. Cure in the lamp once again.

Kao posljednji sloj lakiranja, nanesite Top Coat kako bi zaštitili prethodno nanoseni Hybrid gel i dali mu sjaj. Osušite u lampi još jednom.

Wipe the last layer with the cleaner. Apply cuticle oil, massage it into nails and cuticles. Your nails are ready.

Očistite posljednji sloj čistačem (cleaner), zatim nanesite ulje za zanoktice, masirajte i nokte i zanoktice. Nakon toga Vaši nokti su spremni da ih pokažete svima.

PREMIUM LINE URBAN PRO cosmetics

TOP COAT PRO 9ml

Product which plays its role as a universal Top Coat for both hybrids and UV gels. It doesn't leave a dispersive coat - no need to wipe off the nails after curing.

Proizvod koji ima ulogu završnog sjaja za hibride i UV gelove. Ne ostavlja disperzivni premaz - nema potrebe brisati nokte nakon sušenja.

BASE COAT 9ml

Colorless base coat used under hybrid nail polishes characterized by maximum adhesion to the nail plate and vitamins A, E, F content as well as keratin.

Bezbojna baza za hibridne lakove za nokte. Odlikuju se maksimalnim prijanjanjem na ploču nokta i sadržajem keratina i vitamina A, E i F.

HARD BASE 8g

Colorless base-coat for hybrid nail polishes, which due to its innovative formula can be also used to extend or reconstruct nails. It's intended for every type of nails, even those very weakened ones.

Bezbojni osnovni premaz za hibridne lakove za nokte, koji se zbog inovativnih formula može koristiti za nadogradnju i rekonstrukciju noktiju. Namijenjen je za sve vrste noktiju.

BASE COAT 8g

This gel is recommended to be used underneath the Urban Pro Cosmetics UV / LED Hybrid gel polish in order to increase the hybrid's adhesion. The unique formula of clear gel significantly improves the adhesion to the natural nail plate.

Ovaj gel najbolje je koristiti kao podloga za Urban Pro Cosmetics UV / LED Hybrid gel koji će povećati adheziju hibrida, takođe zbog formule čistog gela poboljšava i adheziju sa prirodnom pločom nokta.

TOP COAT 8g

This gel is a basic agent for complementary to Urban Pro Cosmetics UV / LED hybrid gel varnishing which prevents color from being removed. At the same time it let's your manicure lasts longer.

Ovaj gel je osnovno sredstvo za komplementaciju sa Urban Pro Cosmetics UV / LED Hybrid gel polish koji sprječava skidanje boje. Istovremeno čuva vaš manikir da traje dugo.

UV COLOR GEL

Linija Urban Pro gelova u boji sastoji se od jedinstvenih i modernih boja. Mogu se lako kombinovati sa drugim gelovima. Inovativna srednje gusta, samonivelišuća formula omogućuje dodatani komfor tokom rada. Zbog uklanjanja akrilne kiseline, proizvod ima bolji efekat na nokatnu ploču u odnosu na standardne UV gelove. Ovi gelovi napravljeni su po savremenom receptu, što je omogućilo da se dobiju veoma izdržljiva gel masa. Osnovne karakteristike ovih gelova su: Ne sadrže kiseline, jednofazni, srednja gustina, samonivelišuća formula. Gelovi se suše u UV LED lampi u periodu od 2 minuta.

The Urban Pro color gel line is unique and modern colors. They can be easily combined with others gels. Innovative medium-thick, self-leveling the formula provides extra comfort during operation. Due to the removal of acrylic acid, the product has better effect on the nail plate relative to standard UV gels. These gels are produced using modern recipe, which made them very durable gel mass. The basic characteristics of the gels: Acid free, single phase, medium density, self-leveling formula. The gels are dried in a UV LED lamp for a period of 2 minutes.

Urban Pro gradivni gel je gel za nadogradnju, izlivanje i jačanje noktiju. Savršeno prikriva sve nedostatke, a može se povezivati i sa drugim Urban Pro gelovima. Urban Pro gradivni gelovi su kreirani po modernom receptu od kojeg nastaje izuzetno izdržljiva gel masa polimernih lanaca. Odgovarajuće poravnanje čestica čini gel masu jakom i fleksibilnom istovremeno, sa veoma dobrim prijanjanjem, kako za tipse tako i za prirodni nokat. Gel je samonivelišući i antialergijski. Upotreba: Nanesite gel u željenoj količini ravnomjerno na nokatnu ploču i sušite u UV lampi 2 minuta.

Urban Pro Builder Gel is a gel for upgrading, pouring and strengthening nails. Perfectly conceals any shortcomings, and can be linked to other Urban Pro Gels. Urban Pro builder gels are created according to a modern recipe from which an extremely durable gel mass of polymer chains is formed. Proper particle alignment makes the gel mass strong and flexible at the same time, with very good fit, for tips and for natural nail. The gel is self-leveling and anti-allergic. Usage: Apply the gel in the desired amount evenly to the nail plate and dry in UV lamp for 2 minutes..
